

Mary Maxwell Hutcheson and Fletcher moved into a new manse the week after entering their daughter Mary in St. Andrews Presbyterian College. The move necessitated another change in high schools for Fletcher, Jr., who has settled down well in the junior class hoping to stay put now until he graduates. Lynn, a carefree sixth grader, did not have to change schools. During the January college term Mary participated with about 40 other college students in a Seminar on Politics and Religion which included a ten day stay in Washington highlighted by the Inauguration and briefings and interviews with leading government officials, congressmen and senators. Fletcher stays on the go with a very challenging, rapidly-changing and growing church. Mary is doing some substitute teaching in high school math. Their new address is: 1220 Five Forks Rd., Virginia Beach, Va. 23455.
