BAYSIDE PRESBYTERIAN CHURCH – 2020 VISION PLAN – PLEDGE CARD

Please join Bayside's exciting mission to update and upgrade our current Sanctuary! Your financial support will help to provide the following, much-needed improvements:

- replace our current organ with a state-of-the-art instrument designed and built specifically for our sanctuary, that will perform not only as a pipe organ but will have the capability to provide modern, high-quality digital sounds;
- expand the chancel area and add the supporting infrastructure to accommodate and integrate the choir, praise team, youth choir and other musicians with the congregation in musical worship as well as provide a premiere venue for community activities and outreach in the form of concerts and similar presentations;
- replace and upgrade the smooth tile flooring as well as the carpeting with improved and more durable materials;
- enhance the chancel lighting and upgrade the current sanctuary lighting fixtures with long-life bulbs to minimize replacement requirements - lighting improvements will maintain our original and existing chandelier design;
- repair the cracks/damages to the pews, refurbish and refinish where required, and upgrade the cushioning and covering;
- add other amenities that will make our sanctuary a welcoming and well-appointed space for all styles of worship.
